“Ethan Allen, of Course!”

At Manor House, the first thing our experienced designers do is listen. By finding out more about you—the way you entertain, the books you read, the music you enjoy—they can help plan a room, or a whole house, that will reflect your taste and lifestyle.

What's more, at Manor House complimentary design service is just the beginning. We offer room settings full of ideas on furniture, wall coverings, window treatments, carpeting and accessories. You'll see traditional, country and contemporary. Plus hundreds of fabrics to coordinate for a one-of-a-kind room.

And, of course, you get unparalleled Manor House service. Our entire staff of professionals is dedicated to working with you from the initial consultation through final delivery. So your new room will be everything you've dreamed of and more.

Best of all, our designers, selection and service are backed by Manor House value and quality. Quality that means the pieces you choose today become the family treasures of tomorrow. Experience Manor House—because people are the difference.
